\$25 for members / public and \$10 for students

Hocking College Cannabis Analytical Laboratory

Shimadzu Scientific Instruments and Hocking College have recently announced a collaborative relationship to launch the Hocking College Cannabis Analytic Laboratory. This partnership will support a first-of-its-kind Cannabis Lab Technician Associates of Science Degree. The new laboratory will be the academic leader in analytical safety and potency testing for medicinal cannabis for Ohio patients. Routine testing will quantitate microbiological contaminants, mycotoxins, heavy metals, pesticide residues and cannabinoid potency in compliance with Ohio Revised Code 3796.

Biography: Jonathan Cachat is Hocking's Director of Laboratory Sciences. Dr. Cachat received his Ph.D. in Neuroscience from Tulane University and then completed a Postdoctoral Fellowship at UC Davis focusing on Data Curation and Neuroinformatics. At UC Davis, he served as the faculty advisor for Students for Sensible Drug Policy.

Chair: Michael Fricke, Ph.D.

Secretary: Michael Dowell

Chair Elect: Ranil Gurusinghe, Ph.D.

Treasurer: Charles Kaush, Ph.D.
